

Directions for Rescheduling a Competitive team or a U12 & above Recreation game:

It is the responsibility of the **coaches** to reschedule all games that are cancelled or need to be rescheduled. The procedure to do this is as follows:

1. Find available field space by reviewing the field schedules on the Scoreline website. Go to the Scoreline website at <http://bysl.scoreline.net/> , click on **Field Schedules** on the left hand column under the age groups, find the appropriate field for your game (WKM5, JJH1, JJH2, JJH3) and click on it. This will list all of the games scheduled for each field.
2. Contact the opposing coach and mutually agree on an open space. All Coaches names, telephone numbers, and email addresses are listed on the Scoreline website under “Coaches”. If you cannot find the coaches name, go to their Clubs website (all listed with links on www.bysl.net
3. If this game is being played on a Space Coast Field, email the Space Coast Scheduler at scheduling@spacecoastsoccer.org in order to add the game to the official schedule. Games will be added on a first come/first serve basis. Make sure this email is also to both head coaches to validate the agreement.
4. Also, copy the Referee assignor at referee-assignor@spacecoastsoccer.org in order to have a referee assigned to your game. Referees are mandatory for all games.
5. If this game is played on a non-Space Coast Field, make sure the other coach emails their Club Scheduler to add the game to the official schedule and obtains referees.

The official schedule is located on Scoreline.net and the Club Schedulers have the ability to update for these reschedules.

Remember, Sunday games are also available if both coaches agree.
